### Operator Report:

- 8/17/14 had a few problems on the vacuum systems during the extreme hail and rain storm. Merganser Ct flooded, and then stuck open along with one on Sandpiper. Merganser Ct, one of the lids had some holes drilled in the top of the lid; a new lid needs to be put on and should fix the problem. The rain storm added over 4" of water to the lagoon. It rose from 4.9' on Friday to 5.3' on Wednesday.
- Tony DeBone cut the field Sunday and was ready to bale when the rain storm hit. He had to rake it a few times to roll it over so it could dry out. He should start bailing it on 8/20/14.
- Dick Donaca and John Barnett from Barnett & Company (the CPA's) came out last week and started the audit. We should have a rough draft by the end of the month.
- Bid from Taurus Control for \$21,444.47 and bid from Portland Engineering for \$14,805.00 for new computer and software for vacuum station.
