### Approval of Minutes:

### Approval of Bills:

- a. Elreta made a motion to pay the bills for November 2019 as presented. Jeff seconded the motion, the motion carried unanimously.

### Accounting Reports:

- a. Profit & Loss and Balance Sheets were reviewed.

### Operator Report:

- Sewage Pump #1 was tripping because of its run time and back flow was getting in when Sewage Pump #2 was running. We discovered that the check valve in Sewage Pump #1 was not shutting properly. When we tried to shut the main isolation valve off, we found out it also wasn't shutting properly and needed to be addressed before anything else. After a very early morning, staff changed the isolation valve, that allowed us to open the pumps check valve to discover the issue was a nut was missing off the plate that was holding it in place. Everything was addressed and Sewage Pump #1 has not had any issues since.
- Upon installing the new control panels at the lift stations, they found a contactor had burned up in the Wood Duck lift station. Also needed to replace floats in Swan Rd and Wood Duck lift stations. Panels are working correctly.
- Reed is looking into new floats for the lift stations that we can be able to change out in-house with a quick disconnect. The same company we purchased the new controls panels from also sells these floats and can provide some more information and pricing to Reed.
- Maintenance is being conducted on the vacuum station pumps, they have not had an oil change in a very long-time and they are beyond overdue.
